ARCHIVE NOTE
ARCHIVE DECISION -EPA REGION VII

SITE NAME: Croco Road EPA ID#: KSD984967547 SSID#: --

Alias Site Names: NA

City: Topeka State: KS County or Parish: Shawnee Zip Code: 66606

DECISION CHECKLIST:

No Further Superfund Interest Exists at the Site based upon the following:

All CERCLIS Site work has been completed.
{site assessment, RI/FS, RD, RA, O&M, All Monitoring, Closeout Report,
5-yr review, NPL Deletion, Removal(s)}

☒ Yes ☐ No ☐ N/A

All Enforcement actions have been completed.
{PRP has complied with all aspects of enforcement document(s), All Orders
and/or Consent Decrees have been closed out}

☐ Yes ☐ No ☒ N/A

All Cost Recovery actions have been completed.
{final billing sent & collected, referral completed, DD completed}

☐ Yes ☐ No ☒ N/A

All existing monitoring wells closed in accordance with State Regulations.

☐ Yes ☐ No ☒ N/A

Date of final well closure: _____

If any of the above questions have a no response, site does not qualify for archival.

SUPERFUND RECORDS

DISCUSSION/RATIONALE FOR ARCHIVAL:

See the attached CERCLIS printout for the site.

The Croco Road site is located in Topeka, Kansas in Shawnee County. The site covers approximately 147.5 acres and was first discovered in 1989 when the Kansas Department of Health and Environment (KDHE) received a complaint from a resident regarding the drinking water. Subsequent groundwater sampling identified volatile organic compounds (VOC) in several private wells. ✓

KDHE installed seven monitoring wells, and samples collected from the wells were found to contain the following VOCs: trichloroethylene (TCE), tetrachloroethene (PCE), 1,2-dichloroethene (1,2-DCE), 1,2-dichloroethane (1,2-DCA), 1,1,1-trichloroethane (1,1,1-TCA), and 3,3-dichlorobenzidine (DCB). Contaminants were not found in the soil or surface water. Potential contaminant sources were identified as Challenger Products, Able's Demolition Landfill, Champney Demolition Landfill, and Billard Airport. The site was turned over to KDHE's State Water Plan in 1997. ✓

The U.S. Environmental Protection Agency (EPA) designated No Further Remedial Action Planned (NFRAP) status to the site in 1997, after the site was turned over to KDHE. No known monitoring wells were installed under the authority of the Comprehensive Environmental Response, Compensation and Liability Act/Superfund Amendments and Reauthorization Act (CERCLA/SARA). No further response under CERCLA/SARA is required. This site has been NFRAPed and archiving is appropriate. ✓
